Abstract—These instructions give you guidelines for preparing contributions to GNB2014. If you are opening this file within Microsoft Office Word 6.0 or later, use this document as a template to prepare your contribution. Otherwise, use this document as an instruction set. For submission guidelines, follow the instructions on paper submission system as well as the Conference website.

Keywords—Insert up to 4 keywords, separated by commas.

I. INTRODUCTION

This document is a template for Microsoft Word versions 6.0 or later. If you are reading the .pdf version of this document, please download the electronic file, GNB2014.dot available at \url{http://gnb2014.unipv.it} under the section “Sottomissioni Contributi”. If you haven’t done so yet, to create your own document, from within MS Word, open a new document using File | New then select GNB2014.dot. Please use this document as a “template” to prepare your manuscript. For submission guidelines, follow instructions on paper submission system as well as the Conference website.

When preparing your contribution with GNB2014.dot, styles are already set up, so you don’t need to change the font sizes or line spacing to squeeze more text into a limited number of pages. Use italics for emphasis; do not underline.

To insert images in Word, position the cursor at the insertion point and either use Insert \&lt; Picture \&gt; From File or copy the image to the Windows clipboard and then Edit \&lt; Paste Special \&gt; Picture. The GNB2014 congress page limit is 2 of text plus 1 for figures (4 pages for Lecture Horizon2020).

II. PROCEDURE FOR PAPER SUBMISSION AND PREPARATION

A. Review stage

The submission will be possible only through the conference management system associated with GNB2014. The submission of the contribution is in English language. Please remember that, if you want to participate to the “Premio Giovani Ricercatori”, the first author needs to be the person applying for the prize, and he/she will be the presenter of the contribution at GNB2014. The deadline for the preliminary submission is \textbf{February 15, 2014}.

B. Final stage

When you submit your final version, after your paper has been accepted, please use the same model, or modify the original version according to the instructions reported in this text.

C. Page setup

The paper format for contribution preparation is A4 (210 x 297 mm). Page margins are \{1.5, 2.5, 1.5, 1.5\} cm from \{top, bottom, right, left\}. Text runs in two columns (Width 8.75 cm, with 0.5 cm spacing), except for Title, Authors, and Affiliations.

D. References

Please number citations consecutively in square brackets [1]. The sentence punctuation follows the brackets [2]. Multiple references [2], [3] are each numbered with separate brackets [1]–[3]. In sentences, refer simply to the reference number, as in [3]. Do not use “Ref. [3]” or “reference [3]” except at the beginning of a sentence: “Reference [3] shows ... “ Reference list needs to be typed manually at the end of the paper using the References style.

Please note that the references at the end of this document are in the preferred referencing style. Give all authors’ names; do not use “et al.” unless there are more than five authors. Use a space after authors’ initials. Papers that have not been published should not be cited.

Capitalize only the first word in a paper title, except for proper nouns and element symbols.

E. Tables

Tables are to be embedded into the document and will appear as centred. They are numbered with roman numerals. The table title will appear below the enumeration (as it is shown in Table I), while the table caption will appear below the table. Minimum font size for row text and headers is 8 pt. Please insert a carriage return before the table, and another underneath it.

F. Figures

Figures are in a separate page. They will appear as centred in one- or two-column format. Insert a text paragraph break before each figure, and after each figure caption. Please make sure that figure title, axis label, and axis unit sizes are readable (not less than 8 pt).

In order to increase readability, please insert figures with at least 200 dpi resolution. Place figure captions below the figures, and not as part of them. Do not put borders around the outside of the figures.
In Table I, all the information regarding font size and style are reported, for those not using GNB2014.dot as a template.

### G. Math equations

Math equations are centred, and numbered consecutively in parentheses flush with the right margin, as in Eq. (1).

\[
N_{\text{pages}} \leq 2
\]

(1)

First use the equation editor to create the equation. Then select the “Equation” mark-up style. Press the tab key and write the equation number in parentheses.

### III. HINTS AND RECOMMENDATIONS

#### A. General hints

Please use SI units. Use one space after periods and colons. Hyphenate complex modifiers: “zero-field-cooled magnetization.” Use a zero before decimal points: 0.25, not .25. The abbreviation for “seconds” is s, not sec. A parenthetical statement at the end of a sentence is punctuated outside of the closing parenthesis (like this). The word “data” is plural, not singular. The abbreviation “i.e.” means “that is”, while the abbreviation “e.g.” means “for example”.

When reporting the design of the study, if this involves tests on humans, please include a statement detailing ethical approval and consent.

### IV. CONCLUSION

A conclusion section is not compulsory. Although a conclusion may review the main points of the paper, do not replicate the abstract as the conclusion. A conclusion might elaborate on the importance of the work and suggest applications and extensions.

### APPENDIX

Appendixes, if needed, appear before the acknowledgement.

### ACKNOWLEDGEMENT

Use the singular heading even if you have many acknowledgments. Sponsor and financial support acknowledgments can be placed in this section.
